## **SERVICES FOR STUDENTS WITH DISABILITIES**

The Meyersdale Area School District, Department of Special Education, is responsible for providing a Free and Appropriate Public Education (FAPE) to those students who are considered eligible under state and federal regulations. The District will provide eligible students with the appropriate programs and related services necessary to make meaningful progress within the curriculum.

### **SPECIAL EDUCATION PROGRAMS/EVALUATION PROCESS**

Special Education programs and services are available free of cost to any child ages three through twenty-one, within the Meyersdale Area School District who exhibits one or more of the following disabilities:

- Autism
- Deaf/Blindness
- Deafness
- Emotional Disturbance
- Hearing Impairment
- Intellectual Disability
- Multiple Disabilities
- Orthopedic Impairment
- Other Health Impairment
- Specific Learning Disability
- Speech or Language Impairment
- Visual Impairment
- Traumatic Brain Injury
- Developmental delays for children ages three through five

Many students are referred for special education by a Child Study Team or a screening process. Parents are encouraged to work with his/her child's building principal and school staff members to determine if eligibility for special education services appears necessary. However, a parent always maintains the right to request an evaluation. The student must be determined to be

eligible for services by an evaluation. A certified school psychologist will be involved in the evaluation to determine whether the child is disabled due to autism, emotional disturbance, intellectual disability, multiple disabilities, other health impairment, specific learning disability, or traumatic brain injury, and other disability.

Documents entitled, Parental Procedural Safeguards or Pennsylvania Parent Guide to Special Education for School-Age Children may be obtained by contacting the Director of Special Education's Office: 814-634-8311 ext. 304 or by visiting the Meyersdale Area School District's Special Education Department Website. The Procedural Safeguards Notice can also be found at the PaTTAN website, at [www.Pattan.net](http://www.Pattan.net).

### **GIFTED SERVICES**

Services for mentally gifted students are not driven by federal mandates; however, the Commonwealth of Pennsylvania requires gifted support services under Chapter 16. The District provides a process for screening and determination of eligibility for gifted services. A parent may send a letter of request to the Director of Gifted Education if the parent/guardian feels an evaluation for gifted support is needed. If you feel your child requires gifted services, the following procedures should be applied:

You may contact the Director of Gifted Education at 814-634-8311 ext. 304 or your child's building principal with questions regarding the assessment process (or) 2. Send a letter requesting an evaluation to: a. The principal of your child's school (or) b. Director of Gifted Education Meyersdale Area School District 309 Industrial Park Road Meyersdale, PA 15552

NOTE: If you would like assistance with preparing a letter that requests an evaluation, please contact the Director of Gifted Education at 814-634-8311 ext. 304.

An evaluation report will be developed as part of the legal requirements of the assessment process. Parents and/or guardians are included throughout the assessment process. Documents entitled, "Parental Procedural Safeguards" or "Pennsylvania Parent Guide to Special Education for School Age Children" may be obtained by contacting the Director of Gifted Education's office at 814-634-8311 ext. 304.

### **SERVICES FOR PROTECTED HANDICAPPED STUDENTS/SECTION 504**

Section 504 and its accompanying regulations protect otherwise qualified handicapped students who have physical, mental or health impairments from discrimination because of those impairments. The school district must ensure that protected handicapped students have equal opportunity to participate in the school program and extracurricular activities to the maximum extent appropriate for each individual student. In compliance with state and federal law, the school district will provide to each protected handicapped student without discrimination or cost to the student or family, those related aids, services or accommodations which are needed to

provide equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities to the maximum extent appropriate to the student's abilities.

In order to qualify as a protected handicapped student, the child must be of school age with a physical or mental disability that substantially limits or prohibits participation in or access to an aspect of the school program. These service and protections for "protected handicapped students" may be distinct from those applicable to exceptional or thought-to-be exceptional students. The school district or the parent may initiate an evaluation if they believe a student is a protected handicapped student. For further information on the evaluation procedures and provision of services to protected handicapped students, parents should contact the Special Education Director, 309 Industrial Park Road Meyersdale, PA 15552, or call 814-634-8311 ext. 304.

The entirety of this Annual Public Notice can be found on the Meyersdale Area School District website by first selecting the "Services" tab and then the "Special Education" tab. Also, more information is available by contacting the Director of Special Education.

## **GUIDANCE OFFICE**

### **Refer to STUDENT ASSISTANCE PROGRAM POLICY**

#### **HIGH SCHOOL COUNSELING DEPARTMENT**

The counseling services at the Meyersdale High School are designed to be a support to each child's academic, social, emotional, and behavioral development. This proactive approach includes needs assessments, academic meetings, consultations with outside agencies, preventative and developmental small group counseling and participation in Drug-Free Schools activities. In addition, the counselor accesses services through the school psychologist, nurse, social worker, speech, and occupational therapists. Students may see the school counselor through self-referral, teacher referral, parent referral, counselor request, or administrator request. The school counselor makes every effort to respect a person's privacy, however to best serve the child it is often necessary for adults to work together. The counselor may consult with parents, teachers, administrators, and other colleagues as needed. School counselors are required by law to make referrals and disclose specific information to appropriate agencies under suspicion of abuse/neglect or suspicion that the child is in danger.

### **MEYERSDALE AREA HIGH SCHOOL EXTRACURRICULAR ELIGIBILITY AND TUTORIAL PROGRAM**

Participation in extracurricular activities is a privilege and therefore the following standards of academic eligibility have been adopted by the Meyersdale Area School District.

To be eligible for extracurricular activities a pupil must pursue a curriculum defined and approved by the principal as a full-time curriculum. Where required, this curriculum or its equivalent must be approved by, and conform to, the regulations of the State Board of Education and the Pennsylvania School Code, PIAA, as well as any local policies established by the local school board. The pupil must be passing the core academic areas. Eligibility shall be cumulative from the fifteenth day of school and reported on a weekly basis. In cases where a student's cumulative work for those areas does not as of any Friday meet the standards provided for in this section, he/she shall be ineligible from the immediately following Sunday through the next following Saturday unless the tutorial program policies are followed.

In all cases a student's work must meet PIAA standards for eligibility.

New students must comply with the requirements of the curriculum rules. The standing required for the preceding year shall be obtained from the records of the last school which the pupil has attended.

Students declared ineligible have the right to appeal before the high school principal and the faculty member awarding the failing grade. The final decision in regards to the ineligibility rests with the high school principal.

### **Tutorial Program**

Students attend school primarily to become educated, productive and well adjusted young adults to the fullest of their individual abilities and talents. The successful pursuit of academic studies is the most important key to success as an adult. Everything possible must be done to prepare our young people for adult life.

It is proposed that a tutoring program shall be established through which help in any of the four core academic areas shall be available to students who desire it. (English – Math – Science – Social Studies)

The only prerequisite for tutorial assistance shall be that the student actively participate in classroom activity and not rely solely on the tutoring experience.

Tutoring assistance shall be provided by teachers (retired or active). Any other capable tutor could be used only upon the recommendation of the administration and the school board.

The tutoring program shall be of special significance for students who participate in extracurricular activities. If a student's cumulative average during a nine-week grading period in any of the four core academic areas is an (F), compulsory attendance in the tutorial program will be necessary for continued participation.

For students not involved in an extracurricular activity, participation in the tutorial program will be recommended through the guidance office, a classroom teacher, parental request, or student request.

For students receiving an "F" in a core academic subject during a nine week grading period, a conference will be scheduled with the parents. The parents will accept tutoring or sign a statement that it is not desired.

In all tutoring instances, cooperation and strict attendance patterns shall be expected on the part of the student involved.

## **Guidelines – Tutoring Program**

1. The responsibility for basic instruction lies with the classroom teacher. Under no circumstances will the tutoring process be a substitute for regular and conscientious attendance in the classroom. At no time is the tutor to become responsible for primary teaching.
2. Student tutoring rosters will be submitted electronically by the close of school Thursday. The Athletic Director will inform students that their name has been submitted for after school tutoring, the subject they are failing, and what evening (s) they are scheduled for after school tutoring.
3. Students who continue to fail on either three separate or continuous occasions during a nine-week grading period will be evaluated to determine participation. (*Refer to Tutoring/Eligibility Procedure outlined on page 8*)
4. Coaches and advisors should check with the Athletic Director in regard to students who may be excluded from a practice, game or event because of non-attendance at an evening tutorial session.
5. Recommendations for student failures must be based on a cumulative average, that is, from the first grade of each nine-week period.
6. Tutoring will occur on the day assigned from 3:00 p.m. until 4:15 p.m. in rooms designated by the administration.
7. Tutoring will be scheduled according to need in specific subject area from Monday through Thursday. Tutoring sessions are established by the Athletic Director.
8. Tutors must complete tutorial tracking sheets after each tutoring session. These tracking sheets will be checked to ensure eligibility of participants.

**\*Core Subjects** – Core subjects are all subjects not elected by students attending Meyersdale Area High School. All mainstreamed classes assigned to Special Education will be considered elective classes with the exception of Physical Education, Art, Music, Home Economics and Shop.

**\*Extracurricular Activities include:**

1. All Athletics
2. Marching Band (fall season)
3. Drama (musicals)
4. Cheerleading
5. Competitive Squads (majorettes, silks)

### **Athletic / Extra-Curricular Tutoring & Eligibility Procedure**

#### **Step 1**

Students participating in an extra-curricular activity and who are also failing any one of the four core subject areas will be notified on Friday of each week that he/she is required to attend athletic /extra-curricular tutoring on a specified day of the following week.

On the specified day of the following week, students designated for athletic /extra-curricular tutoring will report to the teacher of the subject(s) they are failing from 3:00 p.m. to 3:15 p.m.

At 3:15 pm. they will report to the general tutoring session at a specified location.

The faculty member in charge of tutoring will determine which students remain in the general tutoring session until 4:15 p.m., based on academic performance in the specified subject(s). All other students will report to practice at that time (3:15 p.m.). If practice is not scheduled, the student(s) will be dismissed if a ride is available or stay until 5:30 p.m. if no ride is available.

### **Step 2**

The same procedure applies for any student assigned to a second tutoring session during a single season (additional activities may be assigned by a coach such as a running penalty to compensate for lost conditioning and practice time)

### **Step 3**

Any student assigned to a third tutoring session during a single season will lose eligibility as listed below:

- Football: will lose eligibility for the first half of the game / Marching Band: will not participate in the pre-game
- All other extra-curricular activities/sports: will lose eligibility for an event after the tutorial list is run on Friday.

This is based on one football game equaling approximately 10% of a season ( ½ game ~ 5% of a season). Other extra-curricular activities follow in line.

### **Step 4**

Any student assigned a fourth tutoring session during a single season will lose eligibility as listed below:

- Football: will lose eligibility for one game / Marching Band: will not participate in any activities the night of the game
- All other extra-curricular activities/sports: will lose eligibility for 2 games.

- Additional steps will refer back to step 4 procedures
- All students are required to attend the game/activity & practices regardless of eligibility
- Tutoring assignments are not subject specific: A student assigned to tutoring for mathematics one week then assigned to tutoring for English a different week will progress to step 2 for English tutoring
- Tutoring steps will be cumulative not consecutive
- Ineligibility will be assessed at the level of primary participation for each student
- Loss of eligibility for specific sports will be determined by the administration and athletic director and will be based upon the above guidelines in steps 3 and 4

## **COMPREHENSIVE FIELD TRIP ELIGIBILITY GUIDELINES**

1. (CRITERIA) Field trip eligibility is based on a combination of academic performance (no failing or incomplete grades), discipline (no excessive instances of detention, suspension, or other behavior issues), and number of absences; including unexcused/ illegal absences. Field trip eligibility is based on the current nine-week grading period with the exception

listed in 2.a.i below.

- a. Specifically, a student is ineligible based on the following guidelines:
  - i. Academic performance
    - a. Failure or incomplete grade
  - ii. Discipline
    - a. Suspension: Out of School:  $\geq 1$ , After School Discipline:  $\geq 2$
    - b. Total discipline infractions:  $\geq 3$
  - iii. Number of absences (absences documented by a valid medical excuse will not be used in calculating eligibility)
    - a. Unexcused/illegal:  $\geq 2$
    - b. Regular absences:  $\geq 6$
2. (EXCEPTIONS) The issue of a “two-week grace period” at the start of a new grading cycle, in terms of field trip eligibility and academic performance, coincides with the same “grace period” that exists regarding athletic eligibility.
  - a. However, field trips, being a privilege, as well as an instance in which students are not present in school or class are subject to the following exception:
    - i. A student shall be ineligible for field trip attendance any time during a nine-week grading period (including the two-week grace period) if that student is failing and/or receiving an incomplete grade in a class that they failed the previous nine-week period.
3. (DISCRETION) Student permission to attend a field trip is at the discretion of the teacher where #2 is concerned. Make-up work in order to fulfill a letter grade and remove an “incomplete” prior to attending a field trip is the intended outcome.
4. The above field trip eligibility policy is applicable only to non-curricular field trips scheduled during any portion of the school day.

### HONORS PROGRAM

Honors weight is earned by students who participate in courses and programs that reach beyond the scope of the Pennsylvania Academic Standards in terms of rigor and content. Course descriptions in the MAHS Program of Studies Guide include a designation of all honors courses. Students participating in honors courses may be awarded .20 or .40 additional weight based on course difficulty. Students must maintain an 80% or 84 % (depending on the course) at the end of each quarter to remain in the honors program for the following year. If a student drops below, they will be removed from the honors program the following school year. They will remain in the course they're currently scheduled in, for the remainder of the school year and are expected to continue to complete all of the requirements of the course. Each student must meet the prerequisite requirements and have teacher recommendation before being permitted to take an honors course.

#### \* Honors Courses are as follows:

**.20 Weight:** ACM-Honors Speech 101, Honors Calculus, Honors Contemporary Affairs, ACM-Honors Sociology 101, ACM-Honors Psychology 101, ACM-Honors Computer Literacy 101, Honors Chemistry I, Honors Chemistry II, Honors Physics I, Honors Physics II, Honors Anatomy and Physiology, Honors Accounting II- Mount Aloysius(prerequisite of 80% in Accounting I) and SCTC-PA Skills Certificate/Program Completion

**.40 Weight:** Honors English grades 10-12, AP Calculus and AP US History

### Report to Parents

The school year is divided into four report periods of nine weeks each. At the close of a nine-week period, each pupil's marks are recorded on a report card. This report card is to be taken home and given to the parents. Report card envelopes must be signed and returned within a five-day period, unless prior arrangements are made with the principal. Failure to return report card in specified timeframe may result in assignment of detention.

## **PROMOTION AND RETENTION**

### **Refer to PROMOTION AND RETENTION POLICY**

#### **Guidelines**

In all cases of retention, the parents/guardians shall be fully involved and informed throughout the process. Parents/Guardians and students shall be informed of the possibility of retention of a student well in advance. Academic achievement, attitude, effort, work habits, behavior, attendance and other factors related to learning shall be evaluated regularly and communicated to students

and parents/guardians. The district shall utilize multiple measures of academic performance as determinants in promotion and retention decisions. Progress toward high school graduation shall be based on the student's ability to achieve the established academic standards and pass the required subjects and electives necessary to earn the number of credits mandated by the Board for graduation.

### **FAILURE OF A SUBJECT**

#### **\*PLEASE NOTE**

Students who earn an average below 60% will be considered as having failed that particular subject. Each class has course requirements. Additionally, passing a course is a compilation of grades and meeting course requirements.

In addition, if a student does not complete a major project during a nine-week period, he/she will receive an incomplete grade (I) for those nine weeks. During the first three nine-weeks grading periods, any incomplete grade (I) will become an "F" for the grading period when the project is not completed to the satisfaction of the classroom teacher within two weeks of the official end of the grading period. Parents will be contacted by the teacher to notify them of the reason for the incomplete grade. During the last nine-weeks grading period, all major projects assigned during the fourth nine weeks must be completed. Any student not completing a major project during the last nine weeks will receive an incomplete grade (I) which must be made up by the last day of school to the satisfaction of the classroom teacher, the head teacher or the building administrator. Failure to make up this work during the last nine weeks will result in failure (F) of the class for the year. The major project must be approved and designated as such by administration.

In an effort to keep parents informed and involved in their child's academic progress, the teachers will contact the parents when a student receives an incomplete (I) for a nine-week grading period in any subject. Parents must be contacted within one week of the end of that grading period.

At anytime during the school year when a student receives a failing grade for two nine-week grading periods, the teacher will contact the parents.

Incomplete grades marked on report cards must be changed to regular grades within a two-week period for the issuance of report cards. Exception on prolonged illness or exceptional circumstances will be determined by the principal.

Senior high students in grades 9 through 12 failing a subject can attend an approved summer school in order to advance with the class for graduation. Twenty-four (24) credits are required for a diploma effective in 1999.

### **Procedures Regarding Class Failures and Double Scheduling of Class Subjects:**

When students fail classes and choose to double schedule in the next year, passing grades must be maintained in these subjects. If a student is failing a double scheduled class that requires a prerequisite, he/she must drop the advanced class for the year. Example: If a junior, who is double scheduled in English fails either English 10 or English 11, they must drop English 11 for the present year.

If the student is not failing a class that is a prerequisite, they will be removed from the class that they are failing. Example: If a junior who is double scheduled in Social Studies fails 10<sup>th</sup> grade World Studies, they will be removed from the World Studies and remain in their 11<sup>th</sup> grade Problems of Democracy/Economics. If they are failing both Social subjects, they will be removed from the more advanced class.

This policy is applicable to seniors if they fail a class and cannot pass the class for the year to complete their graduation requirements. In other words, seniors can remain in the class until they receive their 3<sup>rd</sup> "F" at which time the class will be dropped from their schedule.

Summer school classes are permitted for credit recovery. Beginning in the summer of 2019, sophomore and junior students are permitted to take approved summer advancement courses with the approval of both the parent/guardian and school counselor. In terms of double scheduling, only the lowest unsuccessfully completed course can be made up in summer school. If a class is dropped, it must be made up in future scheduling during the regular school year. Graduation requirements must be completed before a student can participate in the graduation ceremony or receive a Meyersdale Area High School diploma.

#### **HONOR ROLL**

The range for honor roll is 3.600 to 4.4

#### **HONORABLE MENTION**

The range for Honorable Mention is 3.100 to 3.599

### **DROPPING A SUBJECT**

NO COURSE MAY BE DROPPED AFTER THE 1st WEEK OF SCHOOL IN ALL CASES, PARENTAL APPROVAL MUST BE SECURED. FINAL APPROVAL FOR ALL SCHEDULES WILL BE GIVEN EITHER BY THE COUNSELOR OR PRINCIPAL. IF A

COURSE IS DROPPED AFTER THIS TIME, THE STUDENT WILL RECEIVE AN “F” FOR THE YEAR.

## **HEALTH SERVICES**

### **Refer to USE OF MEDICATIONS POLICY, HEALTH EXAMINATIONS/SCREENINGS PUPILS POLICY, Immunization and Communicable Diseases Policy, and FOOD ALLERGY MANAGEMENT POLICY**

The school health program is an integrated part of the total school program and should be fundamentally educational in its nature and scope. While the promotion of health is one of the cardinal objectives of the school health program, no service should be performed in such a manner that it takes away fundamental privileges and responsibilities of the home in relation to its children. This health program is not set up as a diagnostic procedure since nurses cannot diagnose disease. Instead, the school nurse acts as a coordinator between the school and home in the best interest of the child.

Health examinations/screenings are offered in the school according to the School Health Code. Parents are urged to take advantage of these services. First aid will be administered for minor illnesses and injuries occurring during the school day. In the event that a serious injury occurs during school hours the parent will be contacted immediately by the school nurse. If the parent or closest relative cannot be located, the school nurse will act in the best interest of the child and see that emergency care is provided.

The following is a guide for exclusion of children with communicable diseases: measles, six days from onset of rash; whooping cough, four weeks from onset; respiratory streptococcal infections (including scarlet fever) if no physician in attendance of the patient, no less than seven days from onset; head-lice, scabies, or contagious conjunctivitis of the eyes (pink eye), children may return to school 24 hours after initial treatment with an antibiotic; chickenpox, 5 to 7 days after eruption of rash or until scabs are completely dry.

Speech services are provided by the Meyersdale Area School District and the services of the school psychologist, hearing, occupational and physical therapists are available to the district from the Intermediate Unit 08 Office in Somerset.

The school is committed to providing a safe and healthy environment for students with severe or life-threatening allergies and seeks to address allergy management in the school. At the request of a parent or legal guardian, a student shall be exempt from use of Epi auto-injector. In order to request this exemption, contact the school nurse to make an appointment to discuss this decision, review and sign the opt-out form.

If you are sending medication to school with your child, please be sure to follow district procedures which are in place to protect the health and wellbeing of your child.

- If your child requires medication during school hours, a parent permission form **must** be completed
- The doctor whom prescribed the medication **must** sign the permission form
- Medication must be brought to school in the **original** pharmaceutically-dispensed container
- The medication container **must** be properly labeled

- If sending over-the-counter medication, a parent permission form **must** be completed by the parent **and** your child's physician
- Over-the-counter medication must be brought to the school in its **original** package
- Medications brought in baggies or unmarked bottles will **not** be accepted "Parents must bring the medication into the nurse's office – the medication cannot be sent on the bus."

Please direct questions or concerns to the school nurse.

### **Energy Drinks**

Energy drinks of any variety are not permitted in the school. Teachers will confiscate the drink and it will not be returned to the students.

### **Open Containers**

Students are permitted to have/use water bottles during the school day. Water must be in a sealable, clear container, and may only be consumed with permission of the classroom teachers. Coffee mugs, fountain drink cups, Camel/hydration packs, etc, are not permitted. The only time open cans, bottles, or cartons are permitted is during breakfast in homeroom or lunch in the cafeteria. At no time can those beverages leave those designated areas. If the use of a clear water bottle appears to impact the student's level of performance the student will be referred to the Principal and/or nurse and parents will be contacted. The use of a water bottle is a privilege and can be restricted at any time.

## **NOTICE AND INSTRUCTIONS FOR PARENTS REGARDING HEAD LICE**

Head lice affect more people than all other childhood communicable diseases including the common cold, but like a cold, when children come in close contact with each other, it is easy to pass along head lice. Shared hats, clothing, brushes, pillows, and other personal articles are perfect vehicles to transfer lice from one person to another. It is important to act immediately to prevent their spread to other classmates and to other members of the family.

Head lice are small, only about 1/16" long. They are grayish-white with dark edges. While they cannot fly and do not jump, they do move quickly, that's why it's difficult to find them in a child's hair.

Diagnosis of head lice is generally made when lice eggs (called nits), which are fastened to the hair shaft are clearly evident. Nits are teardrop in shape and also very small, only about 1/32" in size. They are "glued" to the hair and cannot be washed or brushed out like dandruff.

Clusters of nits may be found in any section of the hair, but they are more apt to be found behind the ears and at the nape of the neck.

Getting rid of head lice is a matter of washing the hair with a lice-killing product and then very carefully removing all the nits. A special nit-loosening rinse is also available which makes the job easier. **REMOVAL OF NITS IS IMPORTANT TO AVOID RE-INFESTATION.** After having the head lice, all students must first be checked by the school nurse prior to reporting to homerooms on the morning they return to school. Your child may be asked to store personal items in a sealed container to help prevent the spread of lice.

When your child comes home with head lice...

1. Don't panic! Anyone can get head lice. It has nothing to do with cleanliness, nor does it reflect on you as a parent. The problem can be eliminated.
2. Examine your child's head to be sure you know what the nits look like. They are tiny grayish-white eggs attached to the hair, near the scalp, especially behind the ears and at the nape of the neck.
3. Check all other family members to see if they are infected. Any family member with evidence of head lice must also be treated.
4. Use an effective head lice treatment. Your pharmacist can recommend an effective pediculicide product. When used as directed, it will be effective in killing head lice.
5. Remove the nits (lice eggs). Because no pediculicide products kills all eggs, it is very important to remove all traces of the nits to prevent re-infestation. A special comb for this task is usually provided with the lice treatment product; however our fingernails are excellent tools for this purpose. Simply slide the nit out along the hair shaft until you have pulled it off.
6. Wash all clothes, bed linens and towels in hot water and dry on hot cycle for at least 20 minutes. Items that cannot be safely washed, such as stuffed animals, unwashable clothes etc. should be dry cleaned or stored outside the home for a minimum of two weeks.
7. Clean combs and brushes in hot, soapy water. Water should be at least 130 ° F, and it is advisable to let combs and brushes soak in the hot water for 10 minutes.
8. Vacuum everywhere to make sure your home is free of lice. Vacuum carpets, pillows, mattresses, upholstered furniture--anything that might hold lice. Do a thorough job and discard the vacuum bag promptly.

Head lice survive only on humans and do not affect family pets. To eliminate head lice and nits from your home, follow the directions above. Doing a thorough job will prevent their spread in the school and community.

## **NOTICE AND INSTRUCTIONS FOR PARENTS REGARDING BED BUGS**

In general, school environments are not conducive to bed bug infestations. Bed bugs prefer an environment where they can hide during the day and come out at night to feed on a sleeping host. Major infestations of schools are rare. However, bed bugs can hide in clothing or backpacks and can hitchhike to and from schools. There is no association between cleanliness and a bed bug infestation. Anyone can experience an infestation. If bed bugs are found, then it may be necessary to investigate the school as well as the child's home setting.

1. Upon the discovery of a suspected live bug in the school, any school personnel should attempt to capture the insect on a piece of tape and tightly secure in a zip lock bag. Make every effort to keep the bug intact.
2. Discreetly send the student and their belongings up to the designated area. Identification of captured bug will be made, and if it is identified as a bed bug, designated staff will be called to closely inspect the clothing and belongings for any other bugs.
3. If a confirmed bed bug was found on a child t the school nurse will inform the child's parents and perform a screening. Depending on the nurse's assessment, a

recommendation may be made for the student to be sent home. If the student is sent home, he or she should immediately report to the nurse's office for a screening upon his or her return to school. The nurse will then make a determination on whether or not the student should report to his or her regularly scheduled classes.

4. Educational materials should be sent home with the student.
5. As directed by the school principal, custodial staff will be responsible for appropriate vacuuming and cleaning of affected areas upon initial sighting of bug(s) to include classroom areas, lockers, cubbies, etc.
6. Keep communication open between family, nurses, and staff during this period. A group effort is required in this situation. The building principal, guidance counselor, social worker, school nurse, and custodial staff will continue to work together to ensure a positive outcome. Continue to educate family on the importance of obtaining PROFESSIONAL assistance in eliminating bed bugs.
7. **For children in an infested home who repeatedly come to school with bed bugs, institute CLOTHING AND SCHOOL ITEM SANITATION which requires Parents to:**
  - a. Store their child's freshly laundered clothing in sealed plastic bags at home until they are put on in the morning. This prevents bed bugs from hiding in the clothing and being carried to school.
  - b. Wash the student's clothing at home at the hottest recommended setting and tumble dried on high heat for at least 30 minutes before being placed in the bag.
  - c. Backpacks, lunchboxes, coats, shoes, and other items that travel back and forth to school can also be inspected daily and stored in sealed plastic containers, such as a large plastic tote with tight sealing lid at home to prevent bed bugs from getting into them.
  - d. Placing and keeping all child's clothing in large sealed Ziploc bag after washing and drying the clothing.
  - e. Remind parent/guardian and child not to sit on any furniture in the home after removing clothing from dryer or sealed bag and dressing for school.
  - f. Limit items going to and from the home.
8. During this time, the child's personal belongings (backpack, coat, etc..) will be placed in clear plastic tote and kept in office or other designated area away from other student proximity. The smooth interior of the container is also difficult for the bed bugs to climb so wandering bed bugs are likely to fall into the bottom of the container. Designated school employee will inspect the storage tote daily for bed bugs.
9. When the family reports that exterminator has resolved the issue (in writing from the professional), continue bagging for one (1) week and then discontinue if no further bugs found.
10. A reasonable attempt will be made to keep the identity of the involved student(s) and classroom(s) confidential and to preserve the student's emotional and physical health during the time of identification and remediation of the bed bug concern.

Meetings and routine communication may occur with the Principal, relevant school personnel, and social worker to identify and support the needs of the family during the period of de-infestation.

## MEYERSDALE AREA SCHOOL DISTRICT'S ATHLETIC CODE OF CONDUCT

The Meyersdale School District views its extracurricular athletic, cheerleading, marching band (fall season) drama (musical) programs as extensions of the classroom. While these programs are also recreational, we hope students will learn worthwhile lessons of teamwork, discipline, hard work, cooperation and physical fitness. The coach/advisor is considered first as a teacher, teaching skills and reinforcing the other qualities that we hope to see in participants. He/ she has authority similar to that of a teacher in the classroom. Likewise, students and their parents also have an obligation to conduct themselves appropriately. Participation in extracurricular activities is a privilege provided by the District, there is no such thing as a "right" to participate in interscholastic athletics. As such, the school has the authority to establish the parameters for the expectations for ALL those involved in the activities. The school holds these expectations for their athletic programs, and other extracurricular activities, in the interest of maximizing the programs' benefits to students and for their smooth operation. The "Tutoring and Rules/consequences" section of the code of conduct below, is a set of principles and standards designed to guide the ATHLETE/PUPIL in taking acceptable and approved actions. In all cases, a student must pursue a curriculum defined and approved by the principal which meets the PIAA standards for eligibility in extracurricular activities.

### TUTORING:

- Students declared ineligible have the right to appeal before the high school principal and the faculty member assigning the failing grade. The final decision regarding eligibility rests with the high school principal.
- Students involved in extracurricular activities who are failing a subject must spend a minimum of two hours per week in a tutoring session.
- Students who continue to fail on either three separate or continuous occasions during a nine week grading period will be evaluated to determine participation.
- Under NO circumstances will the tutoring process be a substitute for regular attendance in the classroom.
- A conference with parents could be scheduled for students receiving an "F" in a core subject for a nine week grading period.
- Tutoring will occur from 3:00pm to 5:30pm in rooms designated by the administration.
- Students declared ineligible may continue to practice and participate in their activity if all tutorial sessions are attended within that week. Administration will monitor these requirements.

### RULES/CONSEQUENCES:

- 1) The use of snuff or tobacco, in any form, could result in the following:
  - a) shall not practice or participate during the suspension determined by the coach/administration.

- b) cut from the team.
- 2) Any use of drugs and/or alcohol will result in the following:
  - a) refer to Athletic Drug / Alcohol Policy in Student Handbook.
  - b) refer to Voluntary Drug Test Policy in Student Handbook.
- 3) Any infraction of school policy while representing the school in any extracurricular activity will result in disciplinary action by the advisor, coach and/or administration.

### **We expect participants to:**

- Respect the position and requests of the coach.
- Always exemplify the very best courtesy, manners and sportsmanship when representing your school and community.
- Adhere to and willingly follow the rules imposed by the coach.
- Be faithful in attending practices, contests and /or performances. Arrange your schedule to prevent conflicts with athletic schedules. Being excused from practice should be at the discretion of the coach.
- Cooperate fully with the coach and teammates in striving to achieve the TEAM'S goals.
- Give the very best effort and performance possible, both in practice and in contests.
- Be a student first, grades and behavior MUST be maintained both on and off the field, court, mat, etc.
- Be well groomed and neat at all times.
- Support TEAM functions.
- Follow the school's attendance policy. In order to participate in any after-school contest, a student must be at school by 11:30am. of that day.
- Refrain from using alcohol, tobacco and drugs (unless prescribed by a physician). Use of alcohol, tobacco and /or drugs shall result in the student being expelled or suspended from the team. The above include admittance of use ON and/or OFF school property to a coach, school personnel, faculty or administration.
- To understand that administration reserves the right to revoke the privilege of participation at any time for disciplinary reasons. Flagrant misconduct, poor sportsmanship, excessive absenteeism or failure to meet scholastic standards are some examples.
- Be responsible for the care and upkeep of issued equipment.
- Be aware that students are not permitted to drive to the field house for practice for any reason.

### **We expect parents to:**

- Support the position and authority of the coach/advisor as the person in charge of the activity.
- Realize that the coach/advisor has the authority with the team similar to that of the teacher in the classroom.
- Help their child fulfill the expectations stated above.
- Realize that participants may be disciplined or removed from the team for such acts as missing practices, unacceptable behavior and failure to follow team or school rules.
- **Arrange a private meeting with the coach/advisor apart from the time prior to, during or after practices or contests. This allows discussions to be less confrontational in a non-public forum.**
- Realize that participants may be expected to involve themselves in fund-raising projects in support of the activity.
- Expect and encourage their son/daughter to ALWAYS exemplify the best effort and performance possible.
- Respect the coach's decisions regarding their son's/daughter's playing time and game time strategies.
- Conduct themselves in a courteous manner when dealing with a coach, opposing players or fans.
- Realize that parents and others are not permitted in the locker rooms before, during or following a contest/practice except by the invitation of a coach/administrator.
- Remember that a ticket to a school event is a privilege to observe that event.
- Be a positive role model through behavior while attending events.

## **Complaint Policy**

The Meyersdale Area School District has taken great steps to hire quality individuals to direct our extracurricular programs of the district. The Board feels that these individuals are extremely competent and should perform their duties with limited distractions. However, the Board recognizes that concerns do arise between parents and coaches/advisors. The Board, therefore, has created an organized, sequential complaint process to address these concerns. The Board feels that strict adherence to this policy will bring proper and immediate closure to any such concerns.

### **The procedure for processing complaints will be as follows:**

1. Parent(s) will request a face to face meeting with the coach/advisor.
  
2. In the event that the parent(s) are not satisfied with the results of step 1, the parent(s) may arrange a meeting with the athletic director (for athletic programs) or the principal (for other extracurricular activities) and the coach/advisor.

3. In the event that the issue is not resolved in the above steps, the parent(s) shall schedule a meeting with the principal, athletic director and coach/advisor to discuss the concerns.

4. If the issues are still not resolved, the superintendent may meet with the parent(s) to discuss these concerns.

*Issues of game strategy, lineup and playing time will NOT be addressed by a parent to a coach or advisor; nor may they be addressed through the complaint procedures.*

## **MEYERSDALE AREA'S ATHLETIC CODE OF CONDUCT SIGNATURE FORM**

So that ALL persons might be aware of these expectations, participants and their parents MUST sign this document prior to the student participating in the first athletic activity of the season. The signatures of the participant and the parent(s) indicate acknowledgement of the terms of the Athletic Code of Conduct.

Students who violate these expectations are subject to discipline. Parents who are not able to meet these expectations may be banned from attending future Meyersdale Area School District athletic events . As applicable, both parents are to sign below.

#### **Refer to Controlled Substances/Paraphernalia Policy**

**Violations:** No physician, or other person regulated by the act of December 10, 1985 (P.L. 457, No. 112), known as the Medical Practice Act of 1985, or any other school employee, shall dispense, inject or prescribe an anabolic steroid for the purpose of hormonal manipulation intended to increase muscle mass, strength, weight without a medical necessity to do so, for the intended purpose of improving performance in any form of exercises, sport or game. To do so will mean immediate termination of employment from the school district.

### **DRUG & ALCOHOL GUIDELINES & PROCEDURES –**

## **STUDENT ATHLETES**

If a student-athlete is CAUGHT using drugs and/or alcohol, he/she will be dismissed from the team immediately.

If a student-athlete SELF-REPORTS himself/herself as having used drugs and/or alcohol to a coach, athletic director, or school administration, he/she will be placed on an immediate two-week suspension from the team, which includes all scheduled contests. If no contests are scheduled during that time, the student-athlete will be suspended from participation in the next regularly scheduled game or competition that follows the initial two-week suspension.

In addition to the suspension, the student-athlete will be referred to the district's Student Assistance Team through which he/she must submit to an evaluation and follow through according to the recommendation of the appropriate agency and two week suspension from athletic activities.

If a student-athlete is guilty of a second offense he/she shall be suspended from participation for the remainder for the school year.

## **RANDOM DRUG & ALCOHOL TESTING**

### **1. PURPOSE**

The Meyersdale Area School considers extra-curricular activity participation to be a privilege and to be voluntary to every student. Students volunteering to participate are expected to accept the responsibilities associated with this privilege.

As a representative of the school district, students involved in extra-curricular activities are examined by the public, become role models for young children, as well as peers, and are special representatives of the community. They have chosen to accept this role and, with it, the responsibility of a drug and alcohol-free lifestyle.

All students have a responsibility to themselves and others to set a good example and to conduct themselves in a way that will not cause harm to themselves or others through the use of drugs or alcohol.

Administrators, teachers and coaches recognize that drugs and alcohol have a deleterious effect on motivation, memory, judgment, reaction time, coordination, and performance. These effects, in conjunction with other health and safety factors have led to the development of this policy. This policy is viewed as a viable drug and alcohol-free school prevention program.

### **2. PROCEDURES**

Every member of a Meyersdale Area School District extra-curricular program (as designated by the Principal and/or the Middle School Head Teacher) whose parents consent to drug and alcohol testing shall be a participant in this drug and alcohol testing program. For students involved in extra-curricular programs, testing will be done during the activity season/school year in which the student is participating. Other students whose parents consent shall also be participants in the program. Each year a parent(s) or guardian(s) consent ("permission to test") form may be signed authorizing the school district to request, at any time and without prior warning during the season or school year, that the students submit a urine sample for drug and alcohol screening. The sample will be evaluated by an independent laboratory of the School District's choosing, and the laboratory shall follow strict chain of custody procedures.

The Administration of the Meyersdale Area School District shall designate a member of the Student Assistance Team (SAT) to be the Student Assistance Team Drug Testing Coordinator (SATDTC).

All costs associated with the drug and alcohol testing shall be paid by the district. Prescription medications that the student is taking must be identified by the student and verified by a copy of the prescription or a written doctor's statement.

All test results will be provided to the district within a timely manner of the test administration time. The SATDTC will receive a confidential report of the test results in writing from the chosen laboratory.

If the sample tests positive, a second test will be done within forty-eight (48) hours to confirm the results. The second test will be done utilizing the original sample. If the second test is negative, no further action is taken. The building principal and/or the middle school head teacher will provide written notice to the parents/guardians of those students who successfully test negative.

If the student's second test is also positive, a medical review physician designated by the school district or testing facility as they may determine will confirm all positive test results, as provided in paragraph 4.g. The medical review physician will investigate any medication taken by the student who has tested positive and will decide on any affect the medication taken or other legitimate circumstances had on the student's test result, as provided in paragraph 4.g.

If the medical review physician confirms the positive results, the principal/middle school head teacher or his/her designee and the SATDTC will hold a parent conference to make the parent/guardian or student provide additional information relevant to interpretations of the test result, the principal or his/her designee may contact the medical review physician for further confirmation of the results. Should the parent/guardian or student provide additional information relevant to interpretations of the test result, the principal or his/her designee may contact the medical review physician for further confirmation of the results.

Students who test positive for drugs or alcohol will complete the following:

- a. The student must participate in the student assistance program. The student will be required to participate in a drug and alcohol assessment with a certified drug and alcohol evaluator's recommendation will result in the student being prohibited from further participation in the competitive extra-curricular activities.
- b. The student with a first confirmed positive test will be suspended from participation in competitive extra-curricular activities (does not include practice) for a period of two weeks, including all competitions during the two week period. If there are not two weeks remaining of that activity for which the student was tested, the remainder of the suspension will be recalculated and applied toward the next season or activity in which the student participates. (If no competitions in a competitive activity for which the student was tested are scheduled during the two weeks the student will not be permitted to participate in the next scheduled competition.) The student must be re-tested and test negative prior to his/her return to extra-curricular activities. For students who do not participate in extra-curricular activities, parents, with cooperation of school officials, will be responsible for initiating appropriate follow-up action.
- c. The student will be required to be re-tested before the start of another activity in which they will participate. (Students will be subjected to future testing at any time at the discretion of the district.)
- d. The student who retests and is found to have a positive test, qualifying as a second offense (a second confirmed positive test), will be suspended from participation, practice and competition in all extra-curricular activities for the remainder of the

school year. The student must be re-tested and must test negative prior to his/her return to extra-curricular participation.

- e. A student who accumulates three confirmed positive tests will be barred from all extra-curricular activities for the remainder of the school year and the next two school years.

Students will be randomly selected to participate in the screening from each extra-curricular activity and from a pool of those not involved in extra-curricular activities. Selection will be done by a designated school employee not involved in the particular activity to be tested. The percentage of students to be selected from each activity or pool will be from 10% to 100% depending on the activity and circumstances. Should any student, at any time, refuse to submit a sample for testing, this shall result in the student's disqualification from participation and the student will not be permitted to participate on any athletic team or any other extra-curricular activity until he/she submits to a drug and alcohol test and tests negative. The student will comply with the extra-curricular suspension guidelines as described in this policy. For example, a first refusal will result in non-participation for the remainder of the current year and the next two school years. For purposes of the scale of suspension, if a student refuses to submit a sample for testing, this action will be considered a confirmed positive test and will be counted as such.

If a student fails to follow the directions for testing or violates any requirement thereof, the student will be deemed to have refused testing and the provisions above will apply. School Board Policy on Drugs and Alcohol concerning the use, possession, or distribution of illegal substances on school premises and possessing, using or distributing on non-school time shall remain unaffected by this policy

### **3. CONFIDENTIALITY**

- a. All test results will be confidential and access to results shall be limited to the medical review physician, the student, parents or guardians, persons authorized by the student or parents or guardians, or as directed by any subpoena or court order, the principal of his or her designee, the superintendent, and to the extent necessary for them to perform their duties, the coach or activity advisor, the guidance counselor, school nurse, Student Assistance Program personnel, certified drug and alcohol evaluators or drug and alcohol counselors, and others approved by the superintendent as needing the information to implement and enforce this policy and otherwise carry out their duties.
- b. This policy is directed toward prevention and treatment and shall not result in suspension from school, expulsion, or referral to police. However, this policy does not limit the scope and extent of other laws, regulations or school policy dealing with drugs and alcohol.

### **4. TESTING PROTOCOL**

- a. A list of eligible students will be prepared by the advisors/coaches of each activity and by the principal, middle school head teacher and/or the SATDTC with respect to the pool of students not involved in an activity. This list will be forwarded to the SATDTC with respect to the pool of students not involved in an activity. This list will be forwarded to the SATDTC for the random selection of students who will be asked to submit urine specimens for testing.
- e. The principal will use a system to assure that students are selected in a random fashion. Student ID numbers will be used in the selection.

- f. Urine testing is unannounced. The day and date are selected by the building principal/middle school head teacher and confirmed with the Windber Medical Center. Random testing may be done weekly.
- g. Competitive Season begins the date of the official practice/organizational meeting for that activity and continues until that competitive season concludes. For other activities, the beginning and ending of the season will be fixed by the principal/middle school head teacher.
- h. Form Completion-the Windber Medical Center is responsible for seeing that proper drug testing custody and control forms are used that satisfy the needs of the Policy for Random Urine Drug and Alcohol testing for the Meyersdale Area School District. A student number will be used for identification with the student's number only appearing on the copies that go to the donor, Medical Review Physician, and school official. Students will complete a form that will list their ID number and their name, with that form remaining with the SATDTC. The purpose of this form is for the students to verify, by their signature, that this is the ID number they are using.
- i. Collection Process-Selected students report from class to the collection site. A specimen of urine is collected following this process:
  - g. Student is brought to the collection site.
  - h. No purses, bags or containers may be taken into the collection area with the students. All extra coats, vests, jackets, sweaters, etc. are to be removed before entering the collection area.
  - i. The drug testing custody and control form is completed by the student and collector.
  - j. Students are first asked to wash their hands with soap and water and dry them. (If water is unavailable, a non-alcoholic wipe may be used instead.)
  - k. The collector adds a bluing agent to the water in the urinal or toilet.
  - l. The student is told to urinate directly into the provided container and should provide a sufficient amount of urine (45 ml) in one attempt. The student is also told they are to hand the container of urine to the collector.
  - m. The student enters the stall to collect the specimen and then hands the container to the collector. The student may rewash their hands after watching their specimen being sealed.
  - n. The collector checks the volume, reads and records the temperature within four minutes of collection, and looks for evidence of tampering. If tampering is suspected, a second specimen will be requested. A second suspected tampered specimen will be considered refusal to test and the principal will be notified.
  - o. With the student watching, the collector will pour the specimen into the two bottles and recap the specimen bottles tightly.
  - p. The collector takes the properly signed and initialed bottle seals and places them over the caps and sides of the bottles.
  - q. The sealed bottles are placed inside the transport bag and the top sealed as directed.
  - r. The top lab copies of the drug testing custody and control form are folded with the top portion visible to the outside and placed in the Requisition Pouch. This pouch is then sealed as indicated. The student is given the donor copy of the form.
  - s. The student may now rewash their hands and then be sent back to class.

- t. The collector distributed the remaining copies of the form as required, being responsible for getting the appropriate copy of the form to the MRP in a timely manner.
- u. The principal will be notified immediately of any student who refuses to give a urine sample.

### **MEDICAL REVIEW PHYSICIAN (MRP) RESPONSIBILITIES**

The MRP will review all results of urine drug testing. Any urine specimen testing positive for illicit or banned substances after a second test on a portion of the original sample will be handled in the following manner:

- a. The MRP determines if any discrepancies have occurred in the Chain of Custody.
- b. Depending on the substances found in the urine, if necessary, the MRP will contact the designated school official for information needed to contact the parent/guardian/custodian to determine if the student is on any prescribed medication from a physician or if there are any other legitimate circumstances that might have affected the test result.
- c. If the student is on prescription medication, the parent/guardian/custodian will be asked to obtain a letter from the prescribing physician, within five working days, to document what medications the student is currently taking. If there are any other circumstances presented, the parent shall also finish appropriate documentation within five (5) working days. Failure to provide such requested information will be considered a positive result.
- d. The MRP will then determine if any of the prescribed medications or other legitimate circumstances presented resulted in the positive drug screen.
- e. Finally, the MRP based on the information given, will certify the drug test results as positive or negative and report this to the building principal, initially reporting positive results by phone. The MRP will also notify the Prevention Coordinator of the testing facility that a drug test returned positive giving only the dates of the collection and reporting.
  - For example, a drug screen positive for codeine may be ruled negative by the MRP when he receives a letter from the treating physician that the student has been prescribed Tylenol with codeine as a pain medication following tooth extraction.
  - Or, if the student has a positive drug screen for codeine and has no documented physician order for the medication (maybe a parent gave the student one of their pills), this would likely be ruled a positive drug test by the MRP
  - Drug screens positive for illicit drugs (amphetamines, cocaine metabolite, marijuana metabolite, opiates-heroin, phencyclidine, barbiturates, benzodiazepines, methadone, methaqualone, propoxyphene and alcohol) and not explained by the taking of prescribed medicines or other legitimate circumstances would automatically be considered positive by the MRP.
- f. The MRP may use quantitative results to determine if positive results on repeat tests indicate recent use of illicit or banned substances or the natural decline of levels of the illicit or banned substances from the body. If the MRP feels the quantitative

levels determined to be above the established cutoffs do not reflect current use by natural decay, then a negative result may be reported.

- g. The MRP will complete the final review on the drug testing custody and control form and return the appropriate copy to the building Principal in a confidential manner.
- h. Pickup Process: Meyersdale Medical Center is responsible for seeing that specimens are delivered to or picked up by the testing laboratory and the Chain of Custody form properly annotated.
- i. Procedures in the Event of a Positive Result: (See above – 2. Policies and Procedures.)

## 5. EXCEPTIONS

If a student participates in more than one extra-curricular activity and if the student is randomly selected for drug testing in more than one activity at or about the same time, the appropriate principal shall have the right to excuse a student from repetitive testing if he or she deems an excuse warranted.

## 6. REQUESTED TESTING

In addition to random testing, students may be tested, at the principal's discretion, upon parent request. Such testing will not be part of or reduce the random pool and student consent is not required unless the student is 18 years of age or older.

## 7. OTHER TESTING

In addition to testing on a random basis as described above, the principal or his or her designee may require testing on a non-random basis when there is a specific reason or reasonable basis to suspect that there may be a problem.

## 8. PARENTAL CONSENT

Participation in the drug and alcohol testing program requires parental consent. Once consent is given, it shall be valid for the balance of the school year. School years begin July 1 and end the following June 30.

### DIRECTIONS TO STUDENTS

#### DRUG AND ALCOHOL TESTING FOR STUDENTS

You have been randomly selected to participate in a drug and alcohol screening:

- a. of students involved in extra-curricular activities under the District Random Testing Policy or who are part of the pool of students not participating in extra-curricular activities but whose parents consent, or
- b. have been designated for testing by parental request, or
- c. because of a specific reason or reasonable basis to suspect that there may be a problem (in such a case, you will be told what the reason is.)

Please follow these steps:

1. If you have questions regarding the screening, ask the technician prior to the testing.
2. Do not eat, drink, or alter your body chemistry after you have been notified of your selection.

3. Follow the procedure as described by the medical technician or person in charge.
4. Do not, in any way, try to dilute, discolor, alter, or mask the specimen.
5. Please sign off on all paper work following the testing.
6. If you are taking any specific medication at this time, please notify the technician before screening.
7. Get a note and return to your classroom.
8. If you test positive, you will be notified and a parent/guardian conference will be scheduled with the building principal.
9. If you refuse the drug and alcohol screening after being selected or if you fail to follow the above directions or instruction from the technician or person in charge, you will be disqualified from participating in extra-curricular activities as outlined in the Board Policy on Drug and Alcohol Testing for Students. You will be required to follow the policy provisions with respect to any future participation in extra-curricular activities.

Thank you for your cooperation

TO: Parents and Students Involved in Extra-Curricular Activities at Meyersdale Area School District

The Meyersdale Area School District has adopted a policy for random (except where a specific reason or reasonable basis for non-random testing exists) drug and alcohol testing for students in grades 9—12 whose parents consent.

**We request that you help us to maintain a drug and alcohol free school by consenting to have your child participate.**

Students who are selected will provide a sample that will test for amphetamines, cocaine metabolite, marijuana metabolite, opiates-heroin, phencyclidine, barbiturates, benzodiazepines, methadone, methaqualone, propoxyhene and alcohol. The screening will be co-supervised by Windber Medical Center personnel and Meyersdale Area School District personnel. We will observe all legal rules for chain of custody at both the collection and analysis sites. (Chain of custody refers to the security of handling the obtained sample from the point of collection to the final destination for the laboratory including identification, labeling, sealing, and testing.)

The SATDTC will receive a confidential report of the test results. The principal/middle school head teacher and the SATDTC will promptly notify the parents of the students upon receipt of test results. If the sample tests positive, a second verification test is done on the original sample within forty-eight (48) hours to confirm the results. If the second test is negative, no further action is taken. The principal will provide written notice to the parents of those students who successfully test negative.

The test is to be used as a deterrent rather than as a disciplinary tool. However, those who test positive will be notified by the principal/middle school head teacher and the SATDTC and will be:

1. Required to meet with the principal/middle school had teacher, the SATDTC and his/her parents/guardians.
2. Required to participate in the District's Student Assistance Program and complete a drug and alcohol evaluation.
3. Required to comply with the drug and alcohol evaluator's recommendations as failure to comply will result in exclusion from participation in the activity. For students not involved in an

activity, the school will cooperate with parents to determine appropriate follow-up action.

4. Disqualification from further participation in the activity as outlined in Board Policy regarding Drug and Alcohol Testing for Students.
5. Required to be re-tested before the start of another extra-curricular activity in which they will be a participant and to test negative prior to his/her return to the activity.

Involved students will be randomly selected by an individual not associated with the particular extra-curricular program. A student may also be called for testing if there is a specific reason to suspect that there may be a problem. Should any student refuse to submit a sampling for testing, he/she will be disqualified from participation in the activity as specified in the policy.

We will select a percentage of students from each extra-curricular activity during each activity season and periodically from the pool of students not involved in extra-curricular activities. The percentage may vary from 10% to 100% depending on the activity and circumstances. The test will not be announced prior to the actual date of screening. Testing results will be held in strict confidence as provided in the policy. We will continue to follow our School District Board Policy on Drugs and Alcohol concerning the use, possession, or distribution of illegal substances on school premises and possessing, using or distributing on non-school time.

Parents may request, through the high school principal, middle school head teacher, or the SATDT that their child be tested. (Such a test will not affect the random sampling percentage for an activity or testing pool.) These students will still be subject to the drug testing provision of the policy. Cost of this testing will be paid for by the school district.

We thank you for your support and assistance in keeping drugs and alcohol out of our school. This letter summarizes our policy, but you are encouraged to read the policy itself.

**We urge you to consent to having your child participate in this program. Please complete the Consent/Referral Form (whether you consent or are refusing) and return to your child's teacher through your child or, if you prefer, mail to:**

- B. Further consideration to this type of an excuse shall also include an assignment arranged for by school personnel and submitted within three days after the return trip. If the agreed upon work is not completed, the excused absence will become unexcused. The student is responsible to make arrangements to make up all work missed in scheduled classes.
- C. The following will be taken into consideration in granting permission for the trip:
  - a. Will the trip broaden the student's understanding of social, cultural or geographical values and concepts?
  - b. The student's academic standing
  - c. The effect the absence will have on the student's educational welfare

A student is considered tardy at 7:55 a.m.

If a student is late to school and arrives before 9:00 a.m., that student is a.m. tardy.

If a student is absent, arrives after 9:00 a.m., but before 11:30 a.m., the student is considered absent ½ day.

If a student leaves early from school after 2:00 p.m., the student is not counted absent, but the student is considered p.m. tardy.

If a student is present at school, leaves during the school day for an approved reason, and then comes back to school, the student is marked present for the school day.

Special attendance circumstances apply to S.C.T.C. students.

**TARDINESS:**  
**Tardy to School**

Tardy students are required to report to the high school office for a tardy slip prior to reporting to homeroom. Students are due in homeroom at 7:55 a.m.

### **Tardy to Class/Homeroom**

Students are considered late to class if they are not in the assigned room when the bell rings. After students are late to class on three (3) occasions, a detention will be assigned. Repeated offenses will result in the following actions: Three additional tardy offenses (6 total), two days lunch-time detention, four additional tardy offenses, (10 total), one day of After School Discipline. Further disciplinary assignments will be made in a progressive manner and may include out-of-school suspension.

### **Permission to Leave School**

Students who are excused to go to the dentist or doctor are required to return to the office, the dismissal slip signed by the dentist or doctor, otherwise the time missed will be considered illegal/unexcused.

### **School Trips**

Students are not permitted to make school trips unless they present a permit signed by their parents. The student will be permitted to participate in the field trip only at the discretion of the faculty advisor and with the approval of the Principal. Student participation in field trips can be restricted or prohibited based on (but not limited to) grades, attendance and discipline.

### **Permits/Hall Passes**

Students are required to have in their possession a permit slip signed by the teacher before being permitted to go from one room or class to another. The time the student leaves the room should be placed on the permit.

## **STUDENT RIGHTS AND RESPONSIBILITIES**

The State Board of Education adopted a document which is referred to as a STUDENT RIGHTS AND RESPONSIBILITIES. Officially this document is PENNSYLVANIA CODE TITLE 22-EDUCATION CHAPTER 12. STUDENTS; REGULATIONS AND GUIDELINES ON STUDENT RIGHTS AND RESPONSIBILITIES.

Two of the requirements of the document are that Boards of School Directors define their policy on corporal punishment and list those offenses for which a student may be suspended or expelled.

The Meyersdale Area School Board at its regular meeting February 12, 1975 adopted the entire document with the proper explanations relative to corporal punishment and suspension and expulsion.

On December 3, 2005, the State Board of Education amended the Corporal Punishment provision to read:

- a) Corporal punishment is defined as physically punishing a student for an infraction of the discipline policy. USE OF CORPORAL PUNISHMENT IS PROHIBITED.

- b) Teachers and school authorities may use reasonable force under the following circumstances:
1. to quell a disturbance; or
  2. to obtain possession of weapons or other dangerous objects; or
  3. for the purpose of self-defense; or
  4. for the protection of persons or property

If you have any questions concerning this matter, please contact the elementary principal (634-8313); the high school principal (634-8311) or the school superintendent (634-5123).

The law requires the school to show guardians its Student Rights and Responsibilities Policy. If you have a special request, please submit it in writing to the proper school person.

In accordance with Section 12.6, **Exclusions from School** (Suspension and Expulsion) the board lists as required in part (a) that following offenses which could lead to suspension and/or expulsion.

1. Violation contained within the Crime Code of Pennsylvania.
2. Vandalism and destruction of school property and contracted property used in the operation and maintenance of the school.
3. Fighting or assault in any form.
4. Use of tobacco, alcohol, and other dangerous drugs.
5. The use of obscene language or gestures.
6. Threatening or intimidating school personnel, school guests or fellow students.
7. Persistent violation of school rules and regulations.

Expulsion would be used only when the offense is severe in its initial enactment or when lesser offences are repeated with such persistence that they are detrimental to the learning climate or threatening to property, employees, or other students.

The Board reserves the right to add to or delete any of the above offenses to allow for the better and more efficient operation of the schools so long as they are within the limits of State and Federal Statutes.

## **BULLYING**

**Refer to BULLYING/CYBERBULLYING POLICY**

### **BULLYING PREVENTION**

In an effort to improve peer relations and make our school a safer and more positive place for students to learn and develop, the Meyersdale Area School District has implemented the Safe School Ambassadors Program.

The Safe School Ambassadors® Program (SSA) is an evidence-based program that harnesses the power of students to prevent and stop bullying and mistreatment. The SSA Program is a student-centered model that educates diverse social leaders with the skills to prevent and reduce bullying. It is the nation's most effective student-led bullying prevention program.

The Safe School Ambassadors® Program relies on the “inside-out” approach to improving school climate. Student bystanders see, hear, and know things adults don't, can intervene in ways adults can't and are often on the scene of an incident before an adult. They are a critical and necessary resource for positively impacting the crisis of bullying in our schools.

The Safe School Ambassadors® Program harnesses the power of the socially influential leaders of a school's diverse cliques; the ones who shape the social norms that govern other students' behavior. These leaders are carefully identified through student and staff surveys.

As stated in the Weapons Policy, “the school district shall expel for a period of not less than one (1) year any student who violates this weapons policy. Such expulsion shall be given in

conformance with formal due process proceedings required by law. The Superintendent may recommend modifications of such expulsion requirement on a case-by-case basis.”

1. Suspension from school for ten (10) days.
2. Mandatory hearing before the Board of School Directors (or, as authorized by the Board, a committee of the Board or hearing examiner). The Superintendent may exclude the student from school pending the hearing. The standard penalty will be a) expulsion from school of not less than a semester or the equivalent or b) permanent expulsion from school when one or more of the following aggravating circumstances exist:
  - a. Possession of firearm.
  - b. Possession of a knife or cutting instrument, the blade of which is exposed in an automatic way by push-button, switch, spring mechanism or otherwise.
  - c. Possession of a bomb or similar explosive device, the use of which could cause serious bodily injury or property damage.
  - d. By use of a weapon, attempt to cause or intentionally or recklessly causing bodily injury to another.

Staff members and students observing or otherwise becoming aware of weapons on school property, at school activities, or on school transportation shall report the same to the administration immediately. Administrators shall report individuals suspected of possessing weapons on school property, at school activities, or on school transportation to the appropriate law enforcement officials immediately, such duty to report being subject to review by the district’s Solicitor. School personnel who supply information relating to this policy are immune from prosecution as defined in Commonwealth law. This immunity is guaranteed even if the information is determined to be inaccurate, if the information provided was given in good faith and with the best interest of the school community in mind.

## **LOCKER INSPECTION AND INSPECTION OF SCHOOL GROUNDS Refer to SEARCHES PUPILS POLICY**

RESOLUTION OF THE BOARD OF SCHOOL DIRECTORS OF THE MEYERSDALE AREA  
SCHOOL DISTRICT PROVIDING FOR THE INSPECTION OF STUDENT LOCKERS AND

THE USE IN SCHOOL BUILDINGS AND ON SCHOOL GROUNDS OF TRAINED DOGS TO SNIFF FOR DRUGS OR OTHER SUBSTANCES OR THINGS WHICH STUDENTS, BY LAW OR BOARD POLICY, ARE NOT PERMITTED TO POSSESS.

**WHEREAS**, the use of drugs, alcohol, or controlled substances by students is already prohibited by law and policy; and,

**WHEREAS**, the search or inspection of student lockers had been conducted in the past when deemed necessary; and,

**WHEREAS**, the reinforcement of the right to search or inspect lockers is appropriate at a time when eliminating drugs, alcohol, and controlled substances is a major concern of school administrators and boards; and,

**WHEREAS**, in the effort to eliminate drugs, alcohol, and controlled substances from school property it would be helpful to use trained dogs to “sniff” for the presence of such contraband.

**NOW THEREFORE BE IT RESOLVED** and it is hereby resolved by the Board of School Directors of the Meyersdale Area School District as follows:

**1. SCHOOL LOCKERS**

- a. School lockers are school property provided as a convenience to students for their use. Students who accept lockers from the school must understand that such lockers are subject to inspection by school authorities. The use of a locker shall constitute the student’s consent to such inspection.
- b. The locker must not be used for or contain illegal drugs, alcohol, or controlled substances, tobacco or tobacco products, guns, knives or other weapons, or any other items, matter or thing the possession of which is illegal under the law or school policy, rules or regulations. Lockers should be kept clean and neat and should be free of materials which would be commonly considered indecent or obscene. Upon inspection, any materials not permitted in a locker may be seized by school authorities and may be used in any proper manner against the student.
- c. The following provision of the Regulations of the State Board of Education of Pennsylvania, 22 PA code 12;14 shall apply:

*School authorities may search a student’s locker and seize any illegal materials. Such materials may be used as evidence against the student in disciplinary proceedings. Prior to a locker search the students shall be notified and given an opportunity to be present. However, where school authorities have a reasonable suspicion that the locker contains materials which pose a threat to the health, welfare and safety of students in the school, student lockers may be searched without prior warning.*

- d. Lockers shall be cleaned out at the end of the school year and at other times in accordance with instructions given to students by school authorities. After any clean-out date and before reassignment of lockers or authorization to students to reuse the lockers, they shall be open to full inspection, cleaning and use by school authorities without notice to students and anything found in said lockers may be removed by school authorities and disposed of as they see fit with no responsibility to students thereof.
- e. Students should not expect privacy regarding items placed in school lockers because school property is subject to search at any time by school officials and that random, periodic, or sweeping searches of all lockers will be conducted by school

officials. Locker searches will be conducted without regard to any individualized suspicion.

## 2. **CANINE SEARCH**

An individual’s grooming, the way he/she dresses, and how he/she behaves does have a bearing on how others react to him/her.

Dress and grooming should be clean and not unkempt. Hair and dress should satisfy sanitary and safe conditions. If a style demonstrates that it is disruptive to the educational process, constitutes a threat to the safety and health of oneself or others, or is in violation of any statute, it will not be permitted in school. Although styles do change, dress should reflect good taste and a style appropriate for a school day. Any form of attire is subject to evaluation on an individual basis. Garments not permitted include but are not limited to:

1. Vulgar language or vulgar innuendo.
2. Bike pants, see through clothing, or clothing that is too revealing is not permitted.

3. Shorts, skirts, dresses, etc. that are shorter than the distance above the knee determined by the position on the leg of the middle finger on each hand while standing upright. Shorts will not be rolled. The principal shall determine what is unkempt, inappropriate and extreme. Within these limits, the decision regarding attire and grooming shall be left to the good judgment and responsibility of the individual and his/her parents.
4. Chains larger than fine jewelry are not permitted; in addition, jewelry that causes disruption is not permitted. Chain wallets are not permitted.
5. Pants/garments must not be unreasonable on dragging on the floor and not create a safety hazard.
6. Underclothing must be covered.
7. Belly/midriff shirts (where the body can be seen when arms and body are moving) are not permitted. All shirts and blouses must be of length to be able to be tucked in and remain tucked in when arms are raised above head or when seated.
8. Shoulder/tank tops are not permitted unless constructed with a three-inch strap.
9. Trench coats/raincoats, etc., cannot be worn during the school day.
10. Low-cut blouses are not permitted.
11. No ripped or torn clothing is permitted. This includes shirts with cut-off sleeves. An exception to this rule is an allowance for jeans that are factory ripped or torn if the holes are at knee length or below. Tears or rips above the knee will absolutely not be tolerated.
12. Any form of hair covering is not permitted. (hats, caps, hoodies, scarves, bandanas, etc.)
13. Any form of headapparel that covers the forehead or ears is prohibited.

Students, however, may be required to wear certain types of clothing while participating in physical education classes, or in extracurricular activities such as band, school sponsored trips or events.

Educational disruptions caused by violations of the above will lead to removal of the student until said student is properly attired as determined by the administrator of his designee. Dress policy concerns observed by staff should be addressed and reported to office immediately.
